LICENSE & USAGE AGREEMENT

GRANT OF LICENSE. Sensible Edible Bakery ("Licensor") hereby grants you ("Licensee") a non-exclusive, non-transferable license to use this recipe for personal, home, and commercial food service purposes, including preparation and sale of baked goods in cafés, restaurants, and bakeries.

PERMITTED USES. You may: (1) prepare and sell baked goods using this recipe in your establishment; (2) adapt ingredient quantities for your production volume; (3) reference this recipe in your own kitchen documentation for internal use only.

PROHIBITED USES. You may not: (1) reproduce, republish, resell, sublicense, or distribute this recipe document or its contents in any form, digital or physical; (2) claim authorship or ownership of this recipe; (3) include this recipe in any cookbook, course, blog, social media post, or instructional material without prior written consent from Sensible Edible Bakery; (4) transfer this license to any third party.

INTELLECTUAL PROPERTY. This recipe, its formulation, and all associated content remain the exclusive intellectual property of Sensible Edible Bakery (Dalissa Baking Co Inc.). All rights not expressly granted herein are reserved.

NO WARRANTY. This recipe is provided as-is. Results may vary based on ingredients, equipment, altitude, and environmental conditions. Licensor makes no guarantee of specific outcomes and accepts no liability for any loss arising from use of this recipe.

GOVERNING LAW. This agreement shall be governed by the laws of the State of New York. Any disputes shall be resolved in the courts of New York County.

WHAT YOU'LL NEED

Tools

Standing mixer with hook attachment	Mixing bowl with whisk/beater	Immersion blender
Kitchen scale	Spatula	Large countertop workspace
Baking pan (greased)	Cloth or plastic wrap (not airtight)	Extra flour for dusting

THE MAIN RECIPE — HYBRID METHOD

Ingredients

DRY INGREDIENTS		
Tapioca flour		216g
Potato starch		198g
Rice flour		72g
Oat flour		108g
Psyllium husk powder		30g
Xanthan gum		8g / 3.25 tsp
Baking powder (double-acting)		14g / 3 tsp
Sea salt		1.25 tsp
WET INGREDIENTS		
Water (for psyllium)		300g
Coconut milk (full can)		288ml

Sunflower oil	115g
Coconut sugar	70g
Maple syrup	30g
Vanilla	1.5 tsp
Sourdough starter (GF)	192g
Yeast	1 tsp

CINNAMON FILLING

Vegan butter	150g
Cinnamon	60g / 4 tbsp
Coconut sugar	175g
Sea salt	pinch

FULL YEAST VERSION

- Remove sourdough starter (192g)
- Add 96g water
- Add 96g rice flour
- Increase yeast to 3 tsp
- Keep all other ingredients the same

Proof time: ~1.5 hours

FULL SOURDOUGH VERSION

- Remove all yeast
- Keep 192g sourdough starter
- Cut oil in half (57.5g)
- Cut sugar in half (35g)
- Add 1 tsp vinegar

Proof time: 6+ hours at room temp

STEP BY STEP

Method

STEP 01

Gel your psyllium husk

Put lukewarm water in a bowl first. Sprinkle psyllium husk powder on top while stirring immediately — it gels very fast and will clump if you're not quick. Use an immersion blender for best results,

especially if you're new to working with psyllium. A whisk attachment on a handheld mixer also works. Once gelled, set aside and let it sit.

STEP 02

Prepare your wet ingredients

In a separate bowl combine coconut sugar, maple syrup, oil, coconut milk, vanilla, sourdough starter, and yeast. Mix well. Keep the water separate — it has already been used for the psyllium.

Full sourdough version: add 1 tsp vinegar here for flavour enhancement.

STEP 03

Mix your dry ingredients

In a separate bowl combine tapioca flour, potato starch, rice flour, oat flour, psyllium husk, xanthan gum, baking powder, and sea salt. Mix thoroughly with a whisk or by hand until completely uniform.

STEP 04

Bring it all together

Add the gelled psyllium, all wet ingredients, and all dry ingredients into your standing mixer with the hook attachment. Mix until fully incorporated. The dough may look slightly sticky — that is completely normal. Do not add more flour.

[Photo: dough in mixer]

STEP 05

Hydrate the dough

Let the dough rest for 10 minutes, then refrigerate. For best results, allow at least 1 hour of hydration. In our bakery we leave it overnight. The longer the hydration, the less the dough will stick when you roll it out.

Hybrid method: proof at room temperature for approximately 3 hours after shaping.

Full sourdough version: proof at room temperature for a minimum of 6 hours after shaping.

STEP 06

Roll out your dough

Generously flour your countertop — do not be shy with this. Roll dough into a rectangle approximately 24 inches long by 12 inches wide. If using fresh dough, occasionally lift the dough and add flour underneath before stretching it out completely.

[Photo: rolled out rectangle]

STEP 07

Whip and apply the filling

Using your mixer with a whisk or beater attachment, whip the vegan butter with coconut sugar, cinnamon, and a pinch of salt for at least 90 seconds until fluffy and well incorporated. This step is critical — if the filling melts when you spread it, you did not whip it long enough. To apply, place a few spoonfuls in the centre of the dough and spread outward toward the edges. Work from the inside out to avoid reshaping your rectangle. Make sure filling reaches all the way to the edges.

[Photo: filling being spread]

STEP 08

Shape your rolls

For the best presentation, slice your 2-inch rolls first before rolling them up individually. Roll each one with some give — do not roll too tight or the rolls will break open during proofing. Grease your pan well. Place each roll with the seam facing inward, pressing against the neighbouring roll or the wall of the pan. This prevents unravelling as they expand.

[Photo: rolls in pan before proofing]

STEP 09

Proof

Cover loosely with a cloth or plastic wrap — not airtight. Let rise at room temperature.

Hybrid method: approximately 3 hours.

Full yeast version: approximately 1.5 hours.

Full sourdough version: minimum 6 hours at room temperature.

STEP 10

Bake

Preheat your oven to 350°F for at least 20 minutes before baking. Remove the cover from your rolls. Pour your favourite alternative milk over and around the rolls, filling to about a quarter to half an inch — this keeps them gooey and delicious. Place in the oven and bake until golden.

[Photo: rolls going into oven]

STEP 11

Cool completely before serving

This is non-negotiable with gluten-free baked goods. Do not eat them warm — they will taste gummy and underdone even when fully baked. Let them cool for at least 35 minutes. For best results, chill in the refrigerator, then reheat individual rolls before serving. Once cool, pour frosting generously over the top.

[Photo: finished frosted rolls]

PITFALLS TO AVOID

Do not add extra flour if the dough seems sticky — this is normal.

Whip your filling for at least 90 seconds. If it melts on the dough, it was not whipped enough.

Be generous with flour on your work surface or the dough will stick.

Always spread filling from the centre outward to avoid reshaping your rectangle.

Do not roll too tight — the rolls need room to expand during proofing.

Do not let rolls over-proof past their peak rise.

Never eat gluten-free baked goods warm. Always cool completely first.

THE FINISHING TOUCH

Vegan Cream Cheese Frosting

Powdered sugar	470g
Vegan butter	90g
Vegan cream cheese	90g
Water	87g
Vanilla powder	6g / 2.5 tsp
Cornstarch	60g
Sea salt	pinch

Beat vegan butter and cream cheese together first until smooth. Add powdered sugar gradually while mixing. Add water, vanilla powder, cornstarch, and a pinch of salt. Beat until creamy and spreadable. Makes enough for 12 rolls. Spread generously over completely cooled cinnamon rolls.
